

Moscow, Russia

August 4, 2009

## Press release # 4

### RRTC-2009 contest operations from WRTC fields

Another significant step towards WRTC-2010 was achieved during the 18th Russian Radiosport Team Championship. This was the third RRTC contest to take place in exactly the same geographical area as WRTC-2010, near the city of Domodedovo, Moscow region.

18 two-man teams from all over Russia have participated using WRTC alike setups. Teams have been located on 4 different clusters separated some 10-15 miles from one another with 4-5 teams on each cluster separated 500 meters between antennas.

The setups were:

- 10 m tower
- HF37 - 2-2-3 el full size 20-15-10 m tri-bander
- Inverted V - 40 m
- 2 radios - 100 w output controlled
- Custom made switching system
- 2,2 kW power generator, tent, 2 tables, 3 chairs

Hour-by-hour scores, final scores and statistics can be viewed at <http://ozchr.srr.ru/>
